

Combination of Vitamin D3 & K

COMPOSITION

DK™: Each softgel capsule contains Vitamin D₃ (400 IU) Vitamin K₁ (60 mcg) & Vitamin K₂ (30 mcg).

DK™ 4000: Each softgel capsule contains Vitamin D₃ (4000 IU) & Vitamin K₂ (100 mcg).

DESCRIPTION

Phylloquinone is often called vitamin K₁. Phylloquinone is fat soluble and stable in air and moisture. However, it degrades in sunlight. It is found naturally in a wide variety of green plants. Vitamin K is needed for the post translational modification of certain proteins, mostly required for blood coagulation.

Vitamin K₂ is necessary for the activation of osteocalcin, a protein that transports and integrates calcium into bone to ensure a healthy skeleton. Incorporating calcium into the bone matrix means that less calcium is available for harmful deposits in soft body tissues.

Vitamin D₃ (Cholecalciferol) is essential for normal bone growth & development and to maintain bone density. It also helps our body to utilize both Calcium & Phosphorus

INDICATION

- Support for cardiovascular health
- Contribute to normal absorption and utilization of calcium and phosphorus in the body
- Contribute to normal blood clotting
- Contribute to the maintenance of normal bones

DOSAGE & ADMINISTRATION

DK™ Softgel Capsule:

Over 12 years of age: 1-2 softgel capsule daily or as directed by the physician.

DK™ 4000 Softgel Capsule:

Adult: 1 softgel capsule should be taken daily with food or as directed by the physician

CONTRAINDICATION

Contraindicated in patients with known hypersensitivity to any of the ingredients.

SIDE EFFECTS

Well tolerated in recommended dose.

DRUG INTERACTIONS

Vitamin K antagonises the effect of coumarin-type anticoagulants. Co-administration of anticonvulsants can impair the action of vitamin K.

Cholecalciferol is known to interact with Carbamazepine, Dactinomycin, Diuretics, Fosphenytoin, Miconazole, Phenobarbital, Phenytoin, Primidone.

USE IN PREGNANCY & LACTATION

Vitamin K & D₃ is safe in pregnancy & lactation, when used as recommended doses.

STORAGE CONDITION

Store at dry place below 25°C temperature, protect from direct sunlight & moisture. Do not freeze. Keep out of reach of children.

HOW SUPPLIED

DK™ Softgel Capsule: Each box contains 30 softgel capsules in HDPE container.

DK™ 4000 Softgel Capsule: Each box contains 30 softgel capsules in blister pack.
